Policy No: 3

ENVIRONMENT POLICY

Berben Installations Ltd are committed to continually improving environmental performance throughout all of its activities. Impact on the environment from office and site operations will be minimised by conforming to current legislation, regulation and requirements.

The Company will manage its operations and as far as reasonably practicable, the operations of sub contractors and suppliers to prevent pollution of the environment and that everyone operates in an environmentally responsible manner. Our aim will be to make use of natural resources, minimisation of energy, reduction of emissions and waste.

Key considerations on environmental impact through our operations will be to eliminate as far as reasonably practicable potential pollution at the planning stage of each project. This will be achieved by assessment of environmental impacts and action taken to avoid or reduce such impacts to minimise any adverse conditions.

Senior management will be responsible for ensuring that this policy is implemented and will be administered and measured through the application of improvement plans and personnel training.

Training requirements will be identified for all levels of staff and where identified in pursuance of this policy, training will be implemented where appropriate.
